 Research Experiments (Internship): Hunyuan@Tencent < VLLab@UCM < Youtu Lab@Tencent < LV Lab@SMU || Education: PALM Lab@SEU < CVI@SZU

I am a final-year M.Sc. student in the [PALM Lab](#) at [Southeast University \(SEU\)](#), supervised by Prof. [Hongsong Wang](#), and expect to graduate in June 2027. I am currently a research intern at [Tencent Hunyuan](#) and also collaborate remotely with Prof. [Ming-Hsuan Yang](#) at [UC Merced](#). Previously, I interned at [Tencent's Youtu Lab](#) and was a remote visiting student in the [LV Lab](#) at Singapore Management University (SMU), working closely with Prof. [Pan Zhou](#). I received dual bachelor's degrees in Computer Science (B.E.) and Mathematics (B.Sc.) from [Shenzhen University \(SZU\)](#) in 2024, where I began my research journey with Prof. [Can Gao](#).

My research interests include RL, AIGC, world models, and 3D human modeling. My first-author publications include work at NeurIPS, ICLR, and AAAI, as well as in IEEE TIP. I am looking for **Ph.D.** opportunities starting in Fall 2027 and welcome research collaborations in RL and AIGC. If you'd like to connect, feel free to reach out via  xiaofengtan@seu.edu.cn or  WeChat: [txf_06_20](#) . You can find more about my background in my [CV](#) / [中文简历](#).

I'm a Doraemon fan, as the little companions in the bottom corners suggest. Based on our long history of conversations, GPT, Gemini, and Doubao all characterize me as an [INTJ](#), although these conversations have primarily been work-related and may introduce some bias. I share it as a useful starting point for collaboration.
