I am a final-year M.Sc. student in the [PALM Lab @ Southeast University \(SEU\)](#), supervised by Prof. [Hongsong Wang](#), and expect to graduate in June 2027. I am currently a Research Intern at [Tencent Hunyuan](#). I am also collaborating remotely with Prof. [Ming-Hsuan Yang](#) at [UC Merced](#). Previously, I was a Research Intern at [Tencent's Youtu Lab](#). Prior to that, I was a remote visiting student at [LV LAB @ Singapore Management University \(SMU\)](#), where I worked closely with Prof. [Pan Zhou](#). I received dual bachelor's degrees (B.E. in CS, B.Sc. in Math) from [Shenzhen University \(SZU\)](#) in 2024, where I started research with Prof. [Can Gao](#).

My research interests include RL, AIGC, world models, and 3D human modeling. I am looking for **Ph.D.** opportunities starting in Fall 2027 and welcome research collaborations in RL and AIGC. If you'd like to connect, feel free to reach out via  xiaofengtan@seu.edu.cn or  WeChat: [txf_06_20](#) . You can find more about my background in my [CV](#) / [中文简历](#).

I'm a [Doraemon](#) fan . Based on our long history of conversations, GPT, Gemini, and Doubao all characterize me as an [INTJ](#). This may be biased by the work-related nature of our conversations. I hope this offers a useful starting point for understanding how I work in collaborations.
